Make The Best Bets Today With Our Picks & Predictions

From that final score, we can predict things like the moneyline winner, spread, and total for each game.

The computer model allows for repeatable results in the future because this is a data-driven approach that takes the emotional side of betting out of the equation.

We try to get our computer picks out as early as possible to give you the most time to bet, but it usually depends on when the betting lines are released at different online sportsbooks.

Totally Free Expert Picks & Betting Tips

Frequent game bettors may be able to pick up on certain betting trends on teams, but there are dozens of teams to follow at once.

While no system is capable of getting things right 100% of the time, the consistency from a data-driven approach should over time produce more accurate picks than if you just used anecdotal evidence and went with whatever your gut told you that day.

Frequent sports game bettors may consider paying for expert picks, but you must take caution in giving money to any so-called "tout" or gambling service online because some have been guilty of fraudulent behavior and ripping off customers.
