The short answer here is that bookies making money has nothing at all to do with your betting.

But for the most part, if you're betting the spread, you're getting -110.

Even at -105, you'd still have to win an astounding 51. You plan on betting on 160 games during your investment period. 48%.

Good sports bettors understand statistics, particularly what are called inferential statistics, though any higher math will help when it comes time to place a bet.

More statistical analysis is required-he may find that this was a fluke for that particular decade and isn't a trustworthy statistics, or he may find an even more advantageous bet based on his original theory.

A -110 wager, standard for spread bets in the NFL, gives the house a built-in advantage of 10%.

0 (-110) UMass won a single game last season, defeating FCS member Stony Brook, and lost nine games by double-digits.

Don Brown spoke of bringing in some new talent so the team's level will likely improve, but the team obviously has a ways to go to reach respectability.
