Previously, your earned cash back would post to your account once per month. That worked just fine for most cardholders, as it's difficult to accrue a meaningful amount of rewards in a single month. But those who like an instant rebate on their purchases will appreciate this change.

Bet builders should be available for all football matches and some bookmakers, such as Ladbrokes, allow prop markets to be included in their bet builders, adding to the punter's advantage, as they can combine them with other popular selections.

I've never had any complaints up until now and I've had the app about 8 months.

When I noticed that the nets and 76ers FINAL score was double O's I immediately knew something was off & then noticed haws VS.

Oddly enough, those were my pucks that I happened to get right! So after cross checking the scores last night, from what the leaderboard shows now, if there are no discrepancies, I'm in the lead with 11 points!!! But my points are registering at 0.

Now, if I AM in the lead for the first time, I'd like to see that! It's

exciting!!!! But now I'm just wondering if & how many people may have actually won the jackpot or other prizes but not actually awarded them because of this very issue.

There's also NO app support whatsoever, so that's why I decided to leave a review.

.
and frankly because now I have trust issues with it too 😂 I will be much more careful to double check MY awarded points and the scores on the app with actual scores from now on.
