The bonuses offered by online casinos represent a kind of reward that the user receives when registering a gaming account on most platforms, when they make the first deposit or when they reach a certain number of bets on the same platform.

The amount credited to the account (or the free spins) can be used on the games present in the online casino or on those related to a specific offer.

Deposit Bonus To get this type of bonus, unlike the previous one, you'll need to make a deposit.

It probably won't be as high as other bonuses, but it's so easy to cash out that it's one of the most sought after bonuses out there.

Only after having satisfied these conditions, the casino will credit your real money account, which will then be possible for the withdrawal phase.

To unlock and withdraw the amount, you must then play the deposited amount (<20) Tj T*
